EXPLANATION OF COLUMN HEADINGS, NOTES AND ABBREVIATIONS

Book Code
Explained on page 4

Title of Textbook

- **T** Teachers' Edition of Title
- **E** Edition (**3 E** = Third Edition)
- **L** Level (**L 1** = First Level, **L 2** = Second Level)
- **RV** Revised or revision (**2 RV** = Second Revision)

* *After the title of a book, indicates that the publisher of the book did not offer it for re-adoption at the time the contracts for other books on the multiple list were extended. This book is to be continued in use in those schools for which it was adopted.*

Notes
Numbered notes referred to are those printed on page 3 and on the Annual Requisition forms.

Teachers' Aids

The following alphabetic codes identify manuals, guides or other aids included in publishers' contracts for the pupils' textbook and are available where the textbook for which they are supplied is used in classroom quantities. All aids are to be requisitioned at the time the Annual Textbook Report is submitted.

- **A** Teachers' aid available for use with the particular title
- **B** Teachers' aid for use with two or more titles of series adopted for the same grade level
- **C** Teachers' aid for use with books for two or more grade levels of the same series
- **D** Teachers' aid for use with the complete series
- **E** Teachers' edition supplied without cost to the State or school
- **F** Teachers' edition or manual supplied free.

Copyright Date

Contract Period
September 1 of first year is beginning date of original contract; August 31 of second year is final date of current contract.

Publisher
See page 43 for complete names of all publishers holding State textbook contracts and the Texas Depository through which each distributes books.

Contract Price
This is the current price at which books are purchased or payment is made.

Exchange Allowance
This is the amount the publisher of the current-adoption textbook pays the State for the displaced books received from the State during the first two years of the new contract.

TEXTBOOK QUOTA INFORMATION

General Provisions

- Requisitions may be made only for the books selected for use in the school system.
- The number of copies of all selected titles from a multiple list are to be considered in requisitioning additional copies of any book on the list.
- A school is not entitled to more than 110% of a basal title or 100% of a supplementary reader (including teachers' copies). A teacher is entitled to one book in each subject she teaches.
- Usable copies of one title on a multiple list may not be returned in order to secure copies of another title on the same list.
- Textbook contracts may include one or more of these teachers' materials for use with a title: teachers' edition to be purchased by the State; free teachers' edition or free manual, guide, etc.
  - Purchasable teachers' editions must be considered in the quota for the title and the multiple list.
  - Requisition for purchasable teachers' editions will be honored for a number of copies not to exceed the number of teachers for the subject; these editions will be charged to the quota for the title.
  - No teachers' materials are supplied unless the pupils' edition is to be used.
  - Free materials are not charged to the school's inventory.

Normal Quota (Art 2875)

The regular quota for basal textbooks is 100% of the grade membership for books used in grades 1 through 6 and 100% of the subject membership for books used in grades 7 through 12. Either the number of teachers or 10% may be added to the membership figure in determining textbook requests. Annual requisitions are based on projected membership figures; Supplemental Requisitions made after school starts are based on actual memberships.

The normal quota applies to a subject unless a special quota is indicated in the "Notes" column opposite the titles for the subject.

Special-Quota Notes

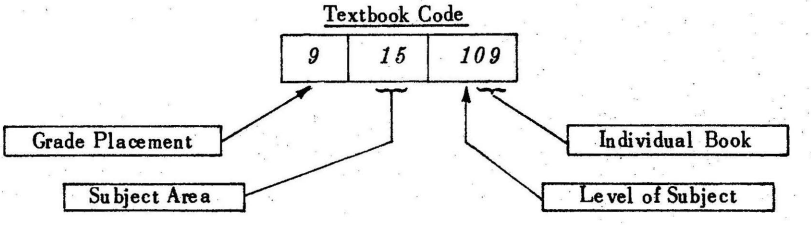
The numbered quotas below are based on membership plus 10% except for these subjects:
- first-grade music which is for teachers only
- supplementary readers which are allowed for actual membership only (teachers' editions of supplementary readers are deducted from pupils' quotas).
- dictionaries which are supplied on basis of actual membership only.

1. Pre-Primer Basal Readers -- 150% of grade one membership.
2. Supplementary Readers for Pre-Primer, Primer, and First Grade -- 300% of grade one membership (only) for each list.
3. First-Grade Vocal Music -- Limited to teachers of vocal music in grade one.
4. Second-Grade Basal and Supplementary Readers -- Combined total of these two lists is not to exceed 400% of the grade membership with a limit of 100% on each level of basal readers and a limit of 300% on the total of supplementary readers.
5. Third-Grade Basal and Supplementary Readers -- Quota is the same as for the second grade.
6. Supplementary Readers for Fourth through Eighth Grade -- 200% of membership (only) in grade to which books are assigned.
7. Dictionaries for Grades Four through Seven -- 40% of combined membership (only) in these four grades. Titles on page 15 are supplied only for increased quota, increased membership or as replacements. Usable copies of books supplied prior to September, 1962, (see page 42) are to be continued in use.
8. U. S. History for Grades Five or Six -- Normal quota for one of these two grades.
9. Arithmetic and Jr. High-School Math for Grades Seven and Eight -- A pupil may be supplied with a book in either of these subjects, but not in both.
10. Elementary Spanish for Grades Three through Eight -- Books adopted for each year of elementary Spanish may be supplied on basis of normal quota at the particular level.
11. Spanish Dictionaries -- 30% of combined membership (only) in Spanish classes in three through eight.
12. H. S. Agriculture -- Combined total of books not to exceed normal quota based on 200% of the agriculture department membership.
13. Commercial Arithmetic -- Normal quota of subject membership.
14. Stenography -- Normal quota based on the subject membership of a manual and also of the dictation book. Advanced Shorthand -- Normal quota of the subject membership for the transcription book and for the speed-building book.
15. Physical and Health Education -- Limited to normal quota based on grade nine membership.
16. Eighth-Grade Dictionaries -- 133% of grade eight membership (only).
18. Vocal Music Grade Eight -- New contracts in this subject do not become effective until September, 1963. All books in the schools at the close of 1961-62 are to be continued in use until 1962-63. A limited quantity of the titles on page 42 are available in the State Textbook Depository and may be secured upon requisition as long as the supply lasts.
19. Copies of this teachers' edition charged to a school on the 1962 Annual Textbook Report will remain charged until proper accounting has been made. Additional copies that may be needed are to be ordered as directed on the Annual Textbook Report and only at the time the Annual Report is filed.
20. French Mechanical Drawing -- This title is under adoption for two different subject multiple lists, namely Mechanical Drawing and Graphic Arts Trades. Instructions are printed on the Annual Textbook Report for use in those schools that have selected this title in both subjects.

EXPLANATION OF TEXTBOOK CODE

All machine processing of textbook records is done according to the individual textbook codes rather than by book titles. Each State-adopted textbook is assigned an identifying number based on the code outlined below. No number will be duplicated even after the contract expires on the book to which it is presently assigned.

The textbook code consists of six digits. For most subjects the first four figures identify a multiple list and the last two digits a particular book on that list.



Assigned Grade Placement

The first digit of the code number indicates the grade or placement of the multiple list on which the book was adopted.

0 – Books adopted for use below Grade 1

1 through *8* – Actual grade for which books are adopted

9 – Books adopted for use above Grade 8

Multiple lists that are adopted for use in two or more grades are coded for one grade only. The complete assigned placement is given in the explanatory note for the list and in the bulletin, CATALOGUE OF CURRENT-ADOPTION TEXTBOOKS.

Subject Area

The second and third digits identify the subject for which the book was adopted by the State Board of Education. See the next page for complete listing of subjects.

Level of Subject

The fourth digit shows the subject level of the book.

1, *2*, etc. – First level or year of a subject, second level, etc.

3 – Readiness level
5 – Pre-Primer level
7 – Primer level

– when used with a *0* grade

Book Number

The fifth and sixth digits represent a specific book on the multiple list.
